IMPORTANT SAFETY INSTRUCTIONS

CAUTION

RISK OF ELECTRIC SHOCK DO NOT OPEN

CAUTION TO THE USER: Refer to the literature accompanying the appliance for instructions on the proper use of this equipment to avoid personal injury and damage to the equipment. The triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

ATTENTION:

The equipment may not be used in a residential area.

WARNING:

This equipment has been designed and manufactured to operate with Class 2 Power Supplies. Use only power supplies of the same power rating as shown on the product nameplate. A power supply with a lower power rating may cause overheating and possible damage to the equipment. This equipment is designed to be connected to a Class 2 power supply which uses a mated plug as specified in UL standard 498 or CSA standard CAN/CSA C22.2 No. 61. The mated plug is intended to prevent insertion into a standard 120 VAC outlet and is not intended to be used with this equipment. Use of a power supply with a different plug type could result in the user being unable to fulfill the 240 VAC line voltage requirements.

POC NOTICE:

This product is intended for use in a residential environment. This product is designed and manufactured to be used only with the accessories and devices supplied or specified by the manufacturer. The use of unauthorized accessories or devices may result in the risk of fire, electric shock, or other hazards. The manufacturer is not responsible for product malfunction or damage resulting from the use of unauthorized accessories or devices.

N.V. and are used under license from Koninklijke Philips N.V.

This product has been manufactured by and is sold under the responsibility of Craig and is subject to the following warranty limitations. Some states do not allow limitations on damages to persons or products for breach of warranty, so the above limitation may not apply to you. This warranty gives specific legal rights. However, you may have other rights which may vary from state to state. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

This warranty is void if the product has been:

a) Used in a commercial application or for rental.
b) Damaged due to misuse, negligence, or abuse.
c) Modified or repaired by anyone other than an authorized Craig service center.
d) Damaged because it is not used under normal and usual conditions.

e) Damaged during shipping.

This product is not warranted for damage caused by:

1. Improper connection to any other equipment.
2. Operation outside the limits specified in the instruction manual.
3. Rental.
4. Damage to the product not used in the USA.
5. Accidents, burns, drafts, water, or other acts of nature.
6. Damage caused by handling or service by anyone other than an authorized Craig service center.
7. Damage not covered by the limited warranty.
8. Normal wear and tear.

If the product is damaged, the warranty is void and the product cannot be repaired or replaced, a refund will be forwarded to you within four weeks of receipt of your unit. Please ship your unit to:

Craig Electronics, Inc.
1515 SW 8th Street
Miami, Fl 33169

ATTENTION:

The cover (or back) of this equipment may be of sufficient magnitude to constitute a risk of electric shock to persons.

This product may generate or use radio frequency energy. If not installed and used in accordance with the instructions, it may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio communications, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that which the receiver is connected.

The antenna is intended to be used exclusively with the product for which it was intended and shall not be used with any other product. Use of any other product with the antenna could result in personal injury or damage.

PACKAGE INCLUDES:

1. Antenna
2. AC/DC Adapter
3. Detachable Amplifier
4. Mounting screws
5. Permanent Mounting Bracket

SET UP:

1. Mark the position of the mounting screws on the wall using a pencil. The screws should be as close as possible to the wall studs.
2. Drill two (2) 6mm diameter x 30mm deep holes by a powerful electric drill or screwdriver. The holes should be centered on the wall studs.
3. The location of the holes should be as close as possible to the wall studs. The holes should be drilled to a depth of 30mm.
4. Secure the supplied screws into the plastic insert and leave approx. 0.3 inch length to hook the antenna. Then put the antenna onto the wall studs. The direction of the antenna should be as follows:

Note:

The antenna can place on the table or mount on wall as follows:

A: Choose a location near a window which gives the antenna a clear view of the transmitter.
B: Place the antenna away from the metal surface to avoid interference.
C: The antenna can be placed on the tabletop, etc. Where it can be pulled on by children or tripped over, causing injury. Please make sure it is arranged so that it will not drape over a tabletop, etc. Where it can be pulled on by children or tripped over, causing injury.

FREQUENTLY ASKED QUESTIONS:

Q: What are the specifications of the antenna?

- Power source of Detachable Amplifier: 12V, 50 mA
- Type of antenna: F type
- Impedance of antenna: 75 Ω
- UHF: 470 – 860 MHz
- VHF: 54 – 216 MHz
- Digital (ATSC) and Analog (NTSC): 54 – 806 MHz
- UHF & VHF bandwidth: 54 – 806 MHz

Q: Can this antenna receive digital or work with Analogue broadcasts?

- This antenna can receive both Analogue and Digital broadcasts.
- It can receive both Analogue and Digital broadcasting services.
- It can receive both Analogue and Digital transmissions.
- It can receive both Analogue and Digital signals.
- It can receive both Analogue and Digital transmissions.
- It can receive both Analogue and Digital broadcasts.

Q: How to connect the antenna to the Detachable Amplifier?

- Connect the round plug from the AC/DC Adapter to the DC IN Jack on the Detachable Amplifier.
- Connect the coaxial cable from the Main Unit to the Detachable Amplifier.
- Connect the coaxial cable from the Main Unit to the Detachable Amplifier.

Q: How to set up the antenna for the best reception possible?

- Position the antenna for the best reception possible.
- Position the antenna for the best reception possible.
- Position the antenna for the best reception possible.
- Position the antenna for the best reception possible.
- Position the antenna for the best reception possible.

Note:

This unit has a long cord that can be easily tripped on or pulled on, causing injury. Please make sure it is arranged so that it will not drape over a tabletop, etc. Where it can be pulled on by children or tripped over, causing injury.

Specifications and accessories are subject to change without notice.
