- Higher peak bitrate ensures more detail in fast action scene
- DTS2.0 Digital Out & Dolby Audio for the ultimate movie experience
- Enjoy local media easily via USB
- Enhanced Accessibility enabled product

4K Ultra HD

With a 4K Ultra HD platform built from the ground up you can rest assured that your 4K Ultra HD Blu-ray player will work flawlessly with other 4K display devices for years to come.

High Dynamic Range

High Dynamic Range technology in Blu-ray Players when connected to a compatible 4K HDR television lets you experience more detail and captivating colors for an even more engaging television experience. More perceivable shades of blacks, whites and all other colors. This boils down to greater perceived brightness and contrast with darker shadows creating a breathtaking image.

Higher peak bitrate

4K Blu-ray format supports more than twice the peak bitrate of 2K Blu-ray which comes in especially handy when watching action movies which have fast paced scenes with a lot of detail. The 100 Mbps peak bitrate of 4K Blu-ray provides enough headroom to store the extra data required to encode high detail fast action scenes and avoid block artifacts.

Wide Color Gamut (BT.2020)

Wide Color Gamut televisions with BT.2020 video input support, reproduce rich colors almost twice as saturated as a standard television, which look more vivid and life-like to enhance the TV viewing experience.

Product specifications

Connectivity

- Rear Connections: HDMI output, Ethernet
- Front Connections: USB

Convenience

- On-Screen Display languages: English, French, Spanish

Multimedia Applications

- Playback Formats: JPEG, PNG, GIF Still pictures, WAV, FLAC, Vorbis, AIFF, Monkey's Audio
- Playback Media: BD, CD, DVD, USB, CD-R/RW, DVD-R/-RW
- Picture Enhancement: High Definition Resolution, Rotate, Slideshow

Power

- Power supply: 120V, 60Hz

Sound

- Sound System: DTS 2.0 + Digital out, Dolby Audio
